Projects

- **AMS Website: Custom PC Builder & E-Commerce**
  - **Live Demo**: *https://ams-react-vercel.app/*
  - ***Tech Stack**: React.js, Node.js, Express, MongoDB (MERN)*
  - Built a full-featured e-commerce platform featuring a dynamic custom PC configurator, secure authentication, and a persistent cart.

- **CodeQuest: Coding Practice Portal**
  - ***Tech Stack**: Python (Flask), SQL, HTML/CSS*
  - Developed a lightweight Flask web application to efficiently organize and display coding problem sets.

- **AI Document Analyzer (RAG Pipeline)**
  - **Live Demo**: *https://ai-rag-analyzer.vercel.app/*
  - *Tech Stack: Python (FastAPI), LangChain, Google Gemini AI*
  - Built a full-stack AI application using a Retrieval-Augmented Generation (RAG) architecture to dynamically interact with and extract insights from PDF documents.

- **Seat Booking System: Real-Time Reservation Platform**
  - **Live Demo**: *https://seat-booking-system-nu.vercel.app/*
  - ***Tech Stack**: React.js, Node.js, Express, MongoDB (MERN), Socket.io, Upstash Redis*
  - Developed an interactive booking interface featuring live real-time tracking and concurrent state management to prevent double bookings.

Objective

MCA student and Full Stack enthusiast with a strong foundation in C++ and Python development. Experienced in building web applications using Flask and React. Passionate about EdTech and seeking an internship to contribute to scalable infrastructure and product engineering in a high-growth startup environment.

Education

Masters of Computer Applications
Maharaja Sayajirao University, Gujarat
2025-2027

Bachelor of Computer Applications, CGPA 8.98
Maharaja Sayajirao University, Gujarat
2022-2025

Class 12th HSC , 86%
2021-2022

Class 10th SSC , 76%
2019-2020

Skills

Hard Skills

- C++
- Python
- Java
- Flask
- Microsoft Azure (Basics)
- SQL (Oracle) & DBMS
- MERN Stack
- Git/GitHub

Soft Skills

- Communication
- Teamwork
- Problem-Solving
